# Certificate
# Scrum Course @ AOE

## Nico Ismaili

participated in the two-day training course "**Scrum Course @ AOE"** of the AOE Academy on 15th and 16th of September and successfully completed the course.

- **Overview of Scrum in theory and practice:** The framework in context to the overall project management

- **Agile Culture:** Values and Principles

- **Scrum Roles:** Scrum Master, Product Owner, Development Team, Stakeholder and their tasks, responsibilities and challenges

- **Scrum Artefacts:** Product Backlog, Sprint Backlog, Increment

- **Scrum Events:** Sprint, Sprint Planning, Review, Retrospective, Daily and Refinements

- **Team building and team maturity**

- **Agile estimation techniques**

The AOE Academy's Scrum Course provides a profound understanding of the theoretical basics of Scrum in a two-day workshop.

Based on the Scrum Guide the roles, artefacts and the events of Scrum are explained and demonstrated using practical examples.

The content is consolidated through discussions moderated by the trainer in combination with practical group exercises.
